## Renovations™ Insulated Siding

Made in the U.S.A.

## STYLE

Freshly painted wood look  
Deep 3/4" profile height provides attractive shadow-lines for the D6

## MAINTENANCE

Limited Lifetime Warranty  
Easy-care convenience, never needs painting

## PERFORMANCE

Thickness: D6 .046; Board & Batten .048  
Vapor permeability, allowing the siding to breath and not absorb moisture  
Insulated vinyl siding can help reduce wall irregularities  
Resists dents, hail damage, scratches & fading  
Reduces thermal conductivity  
Added impact resistance

## QUALITY

Meets or exceeds industry standards for ASTM D3679  
Meets VSI Standards  
Armor Coat™ finish protects the color and provides outstanding weatherability

## SIDING INSULATION

## Neopor Thermal Insulation

## HOW NEOPOR IS SUPERIOR

- Radiant heat moving through Neopor is reflected hundreds of times, instead of moving straight through like traditional insulation
- This significantly slows down the transfer of heat, making it more energy efficient
- Protected by manufacturer's Lifetime Transferrable Warranty

## AVAILABLE FOR

POLARIS ULTRASIDE • WEATHERTECH • HOMEVIEW

INSTALLATION TRAINING AVAILABLE

Contact your MBS Representative to learn more.

Achieve a stately look and timeless appeal with Stacked Stone™ a cost-effective alternative for residential applications. With a Limited Lifetime Warranty, this authentic stone replica adds virtually maintenance-free curb appeal.

Desert Sunset

Sierra Brown

## STACKED STONE PREMIUM

Sedona Bluff

Lewiston Crest

We work in the old-world tradition to use over 100 different molds that capture the natural traits of hand split cedar. All our claddings have a texture that is carried through to the bottom edge of the panel to give an authentic rough-sawn look. This level of detail is only possible with our proprietary process.

## FIBER CEMENT SIDING

James Hardie

### James Hardie® Siding Products with ColorPlus® Technology

- Shadow lines and rich, realistic wood grain provide a more natural and attractive finish for lasting curb appeal
- Ages beautifully and maintains its original character over time with low maintenance
- Resists warping, cracking and splitting caused by exposure to weather and temperature extremes
- Resists damage from high winds and hail
- Won't sag or lose shape over time
- Professionally developed color palette based on market specific preferences
- Multi-coat baked-on finish ensures color quality and consistency
- Fiber cement can be painted to change the appearance
- According to a report by a leading home-improvement magazine, adding fiber-cement siding to your home is the #1 way to get the return on your investment.

## MOULDING

THE LOOK OF WOOD, ONLY SIMPLER

Kleer® cellular PVC trimboard, mouldings, and accessories answer everyone's needs through durable, low-maintenance products that are great looking, easy to install and last a lifetime.
